Blogger Recent Posts Widget That Lists Posts Titles Without Thumbnails by Jide Ogunsanya October 8, 2017, 5:15 am 4 Comments The Recent Posts widget for Blogger lets you display the most recent blog posts on the sidebar of your Blogger/Blogspot blog, making it easy for your readers to see what's new on your blog.

How to Display Recent Posts in Blogger ~ My Blogger Lab Displaying Recent posts in your sidebar often help your users to quickly take a look at the content that is more new and fresh. It also gives them a basic idea that what kind of content is published on a certain blog. Recent Posts on Earth Clinic Posted by Robert Henry (Ten Mile , Tn) on 11/15/2018. GRIZELLE,,,,, depends on your question. Distilled water has no dissolved solids, thus, it is a solvent and will adsorb any mineral over time. Recent Posts with Thumbnails for Blogger - Blogger Widgets I currently have the last 5 recent posts showing on my blog with the most recent post at the top, but this is a bit redundant, as the most recent post is already at the top of my blog. Ideally, what I would like to show are the last 5 recent posts AFTER the one showing at the top of the blog.
